| Starting Price   | \$TBD                                     |

### PLANS: Available for Sale

### DESCRIPTION:

The South Fork Saloon is one of our favorite buildings. This building will make you feel as though you have stepped into a scene from the American West of 150 years ago...only much nicer. The Saloon is stick framed with a truss roof system and uses reclaimed barn wood throughout the interior and exterior of the building. A complete off-grid power system operates the compound.
